

### Top Entering Agitators

**XCEL  
200N-600N**

Helical spiral bevel gearing, for large tanks.

**XCEL 15-24**

High efficiency helical gears, with oversized bearings.

**XCEL 3-10**

Worm gear driven mixer for terrific performance at reduced cost.

**Portable**

Portable clamp mounted mixer

**Side Entering**

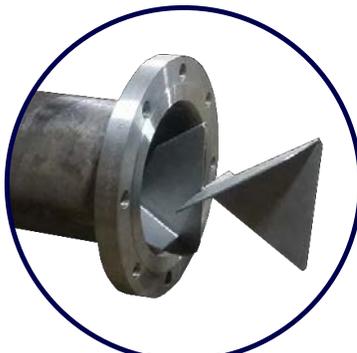

**Magnetic Drive**

**Static Mixers**

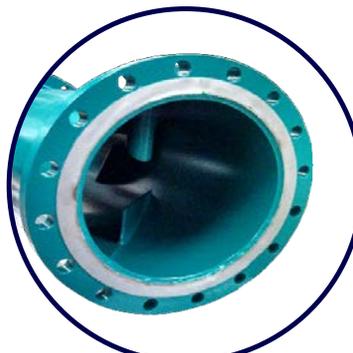

**Helical**

180-degree helical elements, used for mixing miscible liquids, immiscible liquids, and gas.

**Whirled**

Elements are both bent and twisted, used for a wide range of applications.

**Foil**

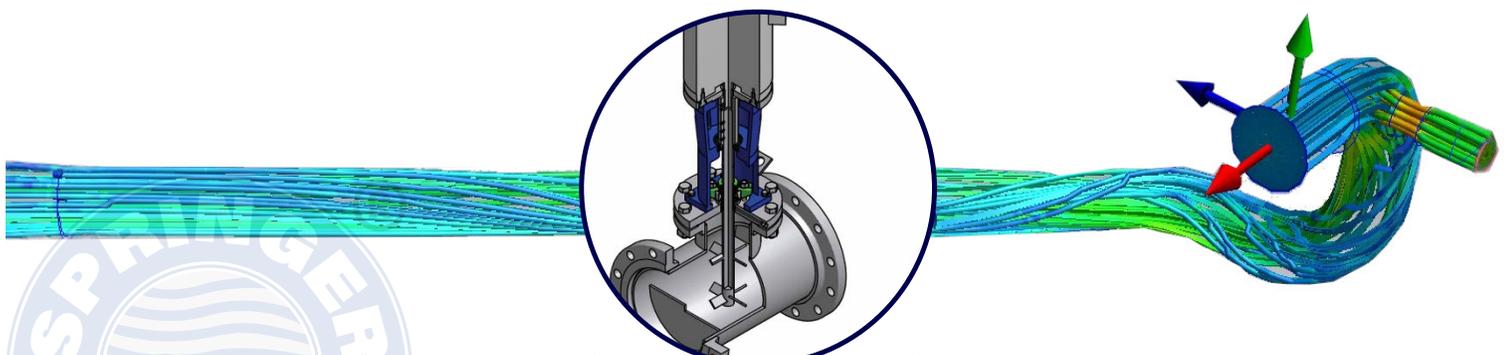

High efficiency 45-degree foils, designed for highly turbulent mixing applications.

**PAC**

Wafer style mixer, for highly turbulent mixing applications, when minimal space is available.

**Line Blender / Pipeline Mixer**

**PL-V**

Mechanical pipeline mixer, for in-line mixing applications

**UET Mixers**
